Lovelock Relay, May 2nd

Caversham had a good representation at these relays, fielding 4 men's teams and 3 women's teams. In the Men's A Grade, the No.1 team ran well to gain third place behind Canterbury University and Leith. In the Sealed Handicap, they narrowly lost first place to Leith No.1 by the very small margin of two seconds. Team members times (unofficial) and results were as follows:

Leith Relays, May 23rd

This event, new to the harrier programme in Otago, was held at Waitahuna on the property of Mr. Don Ashton. The organisation and running of the races was excellent and congratulations must be extended to Trevor King and his committee from the Leith Club, for the work they put in to making this event so successful.

The weather was true to form and remained fine and sunny, although a cool breeze was blowing for most of the afternoon. Ground conditions were excellent which resulted in some very fast times being recorded.

Caversham teams were very successful. The Mens No.1 team was unlucky to gain a major place. It was only superb running by Chip Dunckley (Morningside), who gained fastest time, that squeezed them out of third place. Anybody interested in statistics may be interested to know that the average age of the No.1 team was about 30-33 years old! The Colts No.1 and Womens No.1 teams each ran well to gain second places in their respective races. John Sidon ran well to gain third fastest time overall in his race. Results were as follows:

Club Cross Country Championship Races, June 27th

These races were held on the new course surrounding the Waikouaiti race-course. The course is quite testing with two quite long hills on each lap. I think most people enjoyed the relatively dry conditions and lack of mud. Results were as follows:
